SUPER TRUCK EXPLORERS

THE **BUBA** SUPER TRUCK

B

BOREAL EXPEDITION TRUCK

FAMILIES, FRIENDS, SMALL GROUPS
THE ULTIMATE ADVENTURE

This Expedition Truck is the perfect vehicle for nature lovers, photographers, scientists, adventurers, Northern Lights seekers and everyone else who loves to travel differently and close to nature.

The cab of the Truck seats six people comfortably including the driver, and it can be converted to a bed with a mattress.

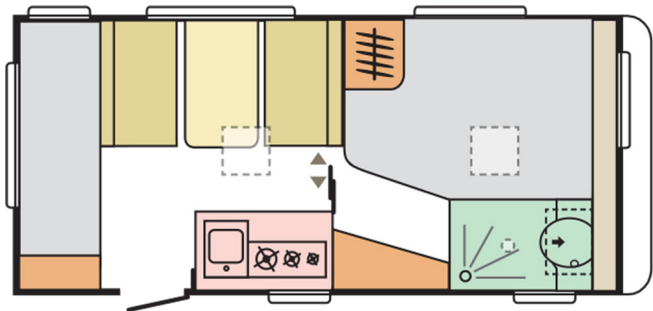

This former Fire Truck had the role of saving lives. Now it rejuvenates souls in the nature of Iceland.

“Buba” is a four door **Mercedes Benz double cab 1222 AF** year 1989 from the fire station in Kreuztal in Germany. Imported to Iceland 2018 with some 27.000 km on. The fire gear was dismantled by the seller. Buba has 5 gear stick shift, lockable quadratrac transfer case for 4x4 with high and low gear. It can easily be driven on mountain roads in low gear without locked transfer case for more easy diving. It is equipped with differential lock on rear axle. Tires can easily be deflated and inflated.

The rear axle was moved almost one meter to the rear, so Wheelbase is 4.54m instead of 3.6m. The frame was lengthened to the rear to support a Caravan. An **Adria Altea 472 PK** year 2020 was mounted on a frame bolted on rubber supports on the original frame. By doing that the truck frame can be as flexible as before without damaging the Caravan and thereby be a part of the suspension of the truck. The Caravan has a double bed and a bunk bed (with two single beds). There is also the option of converting the table into a cot. Equipped with Diesel air heater as well as Diesel water boiler, and the heat from engine heats up the water during driving as well as the engine can be heated up before starting. The cab of the Mercedes Truck seats six people comfortably including the driver, and rear seats can be converted to a one person bed with a mattress. There is also a Webasto air heater.

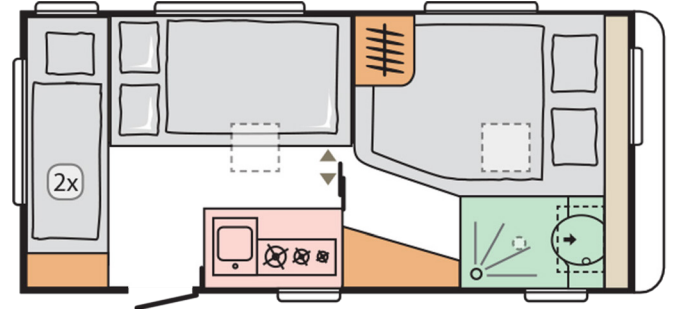

IDEALLY SUITED
FOR FAMILIES AND FRIENDS

DAY MODE

The 4x4 Motorhome has all the luxuries of a home with a shower and toilet, hot and cold water, gas stove, fridge, heating, Bluetooth, USB and 220 connectors. There is one double bed and one bunk bed (with two single beds).

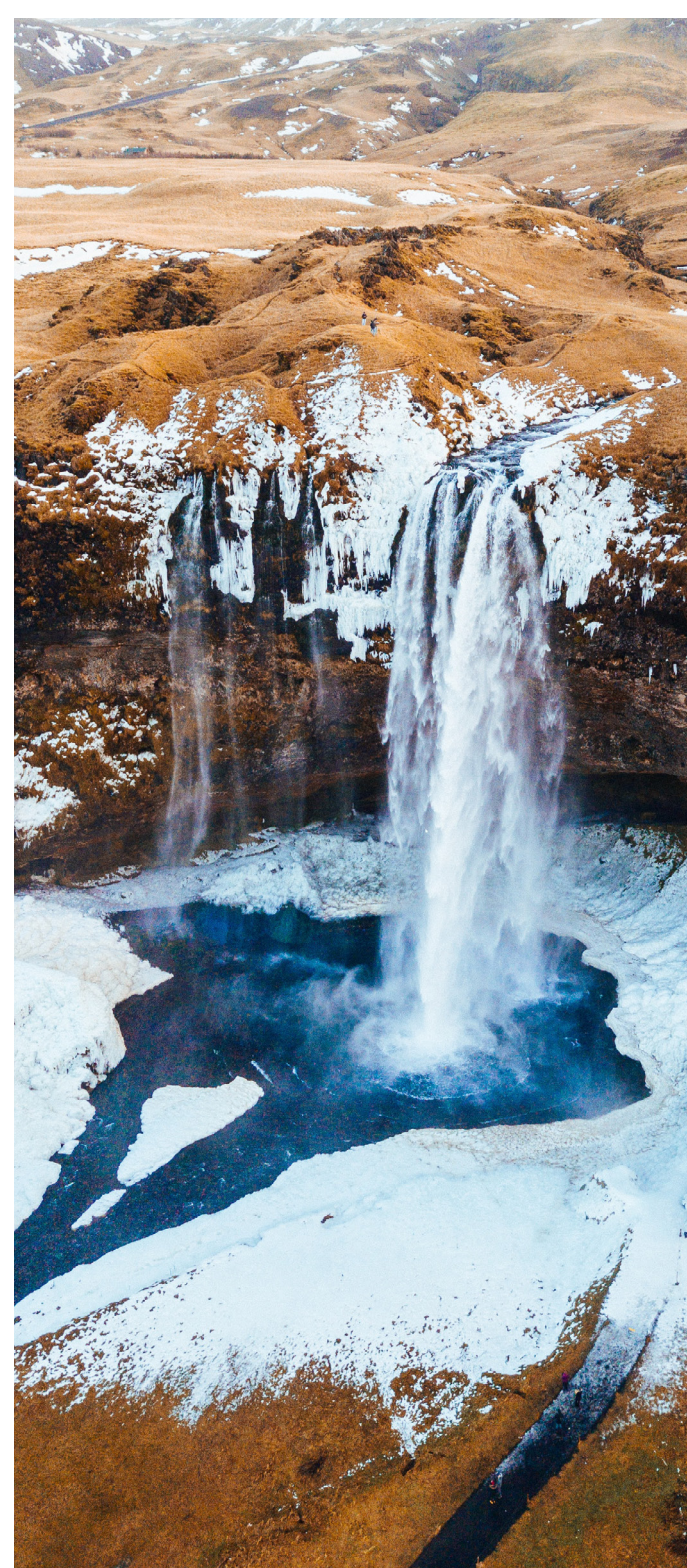

NIGHT MODE

There is also the option of converting the table into a cot. Being fully equipped, enables overnight stays far away from the beaten track and civilization, in remote camp sites, surrounded by Iceland's astounding landscapes.
